

# L-SHAPE SCISSORS TYPE AUTOMATIC SEALING MACHINE

- Scissors sealing designed, sealing action is stable to provide excellent stability and durability.
- It can reduce the sealing line folded to get a perfect sealing and cutting effect.
- It can be equipped with automatic feeding system.
- With widely application for all kinds of products.
- Easy to change the product sizes or models.
- Suitable for different types of shrink films.
- Affordable, the best choice for fully automatic sealing machine.
- With safeguard systems and alarm devices.
- The sealing system is smoother, with stable sealing action and sealing joint line is even and orderly.
- Simple operation control.
- Automatic feeding system, length can be automatically adjusted by electric eye "Sensor" detected.
- Punching perforation device can be flexible adjusted, the pinwheel brush system can be used permanently.

## MACHINE CAPACITY ~30 PCS/MIN

Model No	SP-A5645
Voltage	220V / 1PH / 50HZ
Power	3.0KW
Cylinder Air Consumption	80psi, 6kg/cm <sup>2</sup>
Sealing Bar Dimension ( L x W )	560mmL x 450mmW
Min Packing Size ( L x W x H )	100mmL x 60mmW x 20mmH
Max Machine Size ( L x W x H )	500mmL x 400mmW x 120mmH
Machine Size ( L x W x H )	1780mmL x 985mmW x 1550mmH

### OVERVIEW:

The sealing position has fixed with the anti-pressure sensor system and portable perforating device. In flexible adjustment and strong durability.

Specially for commercial products, all kind of foods, cosmetics, candy, books, photos, gift boxes, carton boxes and etc.

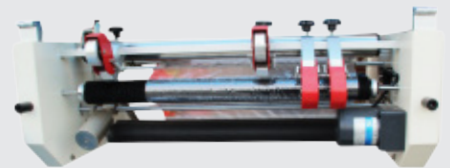

### FEATURES:

- Flexible adjustment of high and low width.
- With widely application for all kinds of products.
- Automatic feeding, length can be detected by electric eye "Sensor".
- Automatic adjustment, easy operating and setting.
- Can be equipped with automatic feeding system.
- Can be equipped with horizontal and vertical two groups of electric eye (sensor).

### FEATURES:

- 90° right angle cut off the ultimate design concept.
- Both sealing system and sealing action are smooth.
- Line neat beautiful seal can be automatically based on the thickness of the product.
- The conditioning section is equipped with a close-fitting device and a smaller package product.

### FEATURES:

- Punching perforation device can be flexible adjusted, the pinwheel brush system can be used permanently.
